

## Card Attaching & Tip-On Solutions

# APAS (Automatic Product Attaching System)

### Overview

**Automated product affixing for a wide range of materials and applications**

The APAS is available in three models: APAS 72-1, APAS 112-1, and APAS 112-2. Attach products such as embossed cards, business cards, magnets and more at speeds up to 20,000 mail pieces per hour with precision within +/- 1/8" of tolerance area. Our systems are quick to set up and run and easy to operate.

An operator friendly user interface, the integrated Nordson® Hot Glue System and application changeover in 15 minutes or less lets you sustain a competitive advantage when offering your customers new services.

*Shown with optional FeedMAX feeder and shingling conveyor*

### Standard Features

- TUV certified vacuum base • Nordson® Hot Glue System with single gun
- Versatile card feeder • HMI touch screen

### Options

Second card feeder (requires 112" base; may require additional glue system components)
