

Mailing / Fulfillment Solutions - Solutions for Conveying & Material Handling Slow Moving Stand-Alone Conveyor

Overview

Used to accumulate shingled product from an inkjet/tabber, this conveyor has variable speed capability with 100 feet per minute maximum speed. 90 degree product knockdown is standard. Straight away configuration is available.

Conveyors are available in 6, 9, and 12 foot lengths. They operate stand-alone so they can be used throughout your production area.

Right angle material control knockdown helps control the product as it enters the conveyor, ensuring a nice and neat shingle.
