

## Labeling Series Streamfeeder VTS-2000 Vacuum Transport System

### Overview

The VTS-2000 is the ideal multi-purpose system to handle all that you throw at it. From scanning, to printing, to labeling, to addressing, to tipping/attaching, and more you can be assured that this system will provide all the flexibility required of fulfillment systems today. The heavy-duty base equipped with the versatile V-2000p large product friction feeder will provide years of service at an affordable price.

Consistently feed and transport a wide variety of flat and multi-thickness products up to 20" wide at speeds up to 245 feet per minute for barcode reading, printing, print verification, tipping, and more. The system can be used as an offline production system or simply remove the feeder and put it inline with other production flows.
