UC22 – A Quantum Leap

A New Level of Performance in Case Coding Printers

What is the UC22?

- High-Performance, low-cost Case Coding solution
- All in one Design – minimal options: simple installation
- Incredible Quality – up to 1200dpi
- Reduced Operating Cost – bulk-only solution
- Powerful and intuitive software for simple use

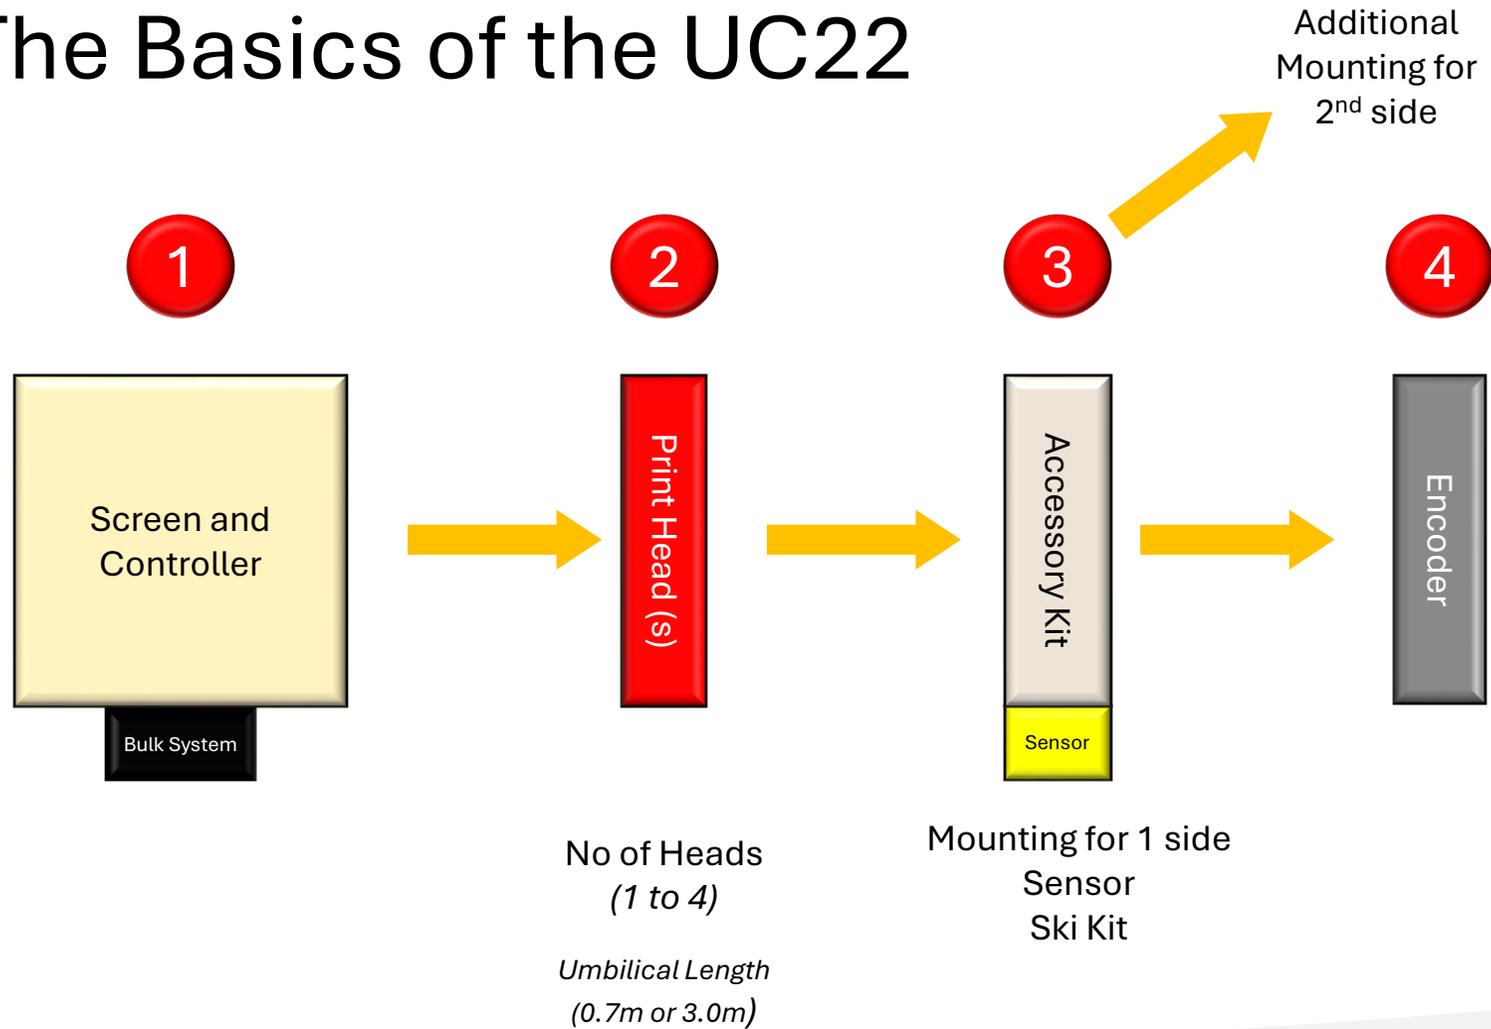

Based on TIJ 4.0 Print Technology

- 22mm (7/8”) Print Swath
- Up to 4800 DPI
- 6pl Drop Size
- Bulk Only Solution (775ml) with Built-in Regulators
- Improved Print Quality and Throw Distance
- About 4 Times Faster Than TIJ2.5

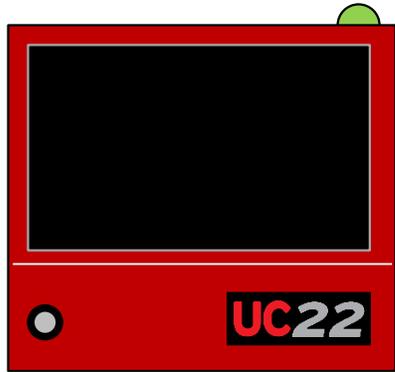

The Basics of the UC22

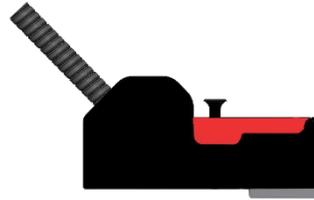

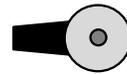

Building the Solution

UC22 Controller

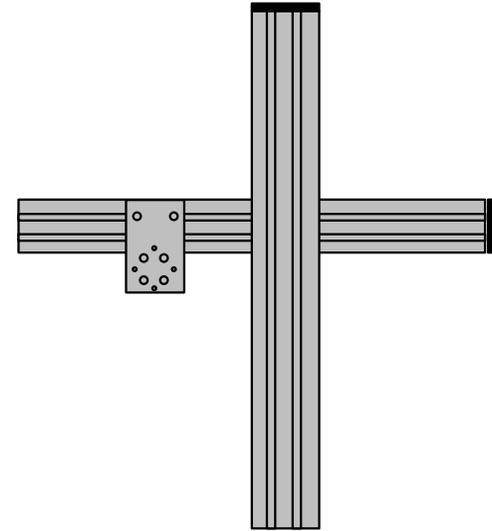

Print Heads (up to 4)

Encoder

Sensor

Mounting

UC22 Controller and Screen

- All in one 11" color screen
- Embedded Vega
- Single Bulk Tank in unit
- No Daisy Chain capability
- Supports a maximum 4 penstalls

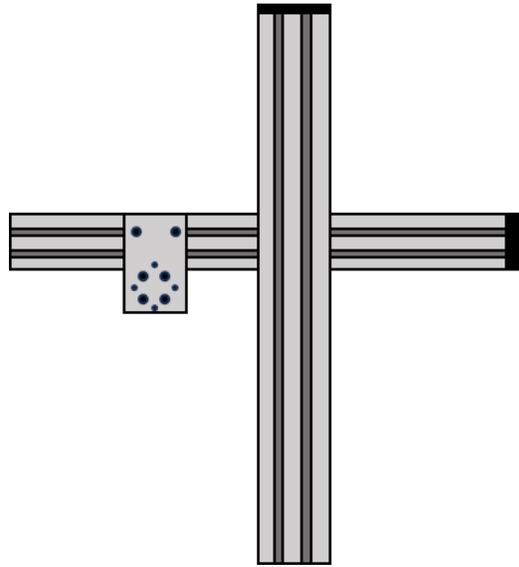

Print Heads

- Two Lengths
 - 0.7m used for close to the Controller
 - 3.0m for opposite side

Accessory kit

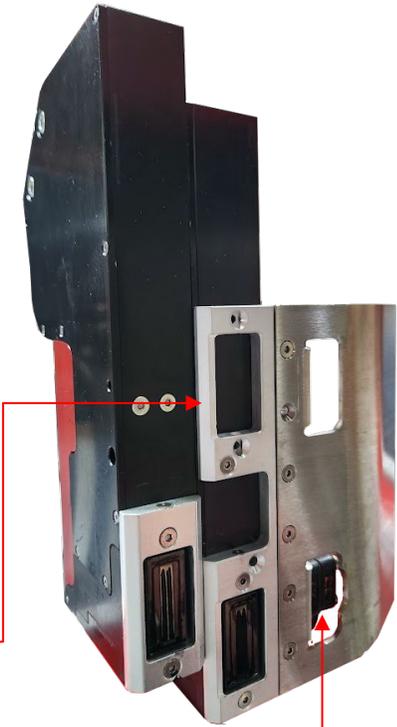

Mount

Ski Kit

Mini Sensor

 Encoder

Encoder
(Knurled or Urethane)

Some Possible Scenarios – Front

- UC22 Print Controller (1)
- 0.7m Pen Stall (1)
- Accessory Kit (1)
- Encoder (1)

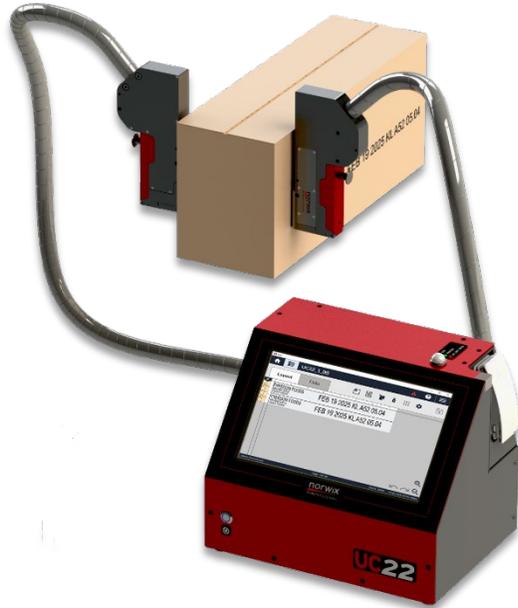

- UC22 Print Controller (1)
- 0.7m Pen Stall (2)
- Accessory Kit (1)
- Encoder (1)

- UC22 Print Controller (1)
- 0.7m Pen Stall (4)
- Accessory Kit (1)
- Encoder (1)

Some Possible Scenarios – Front and Back

- UC22 Print Controller (1)
- 0.7m Pen Stall (1)
- 3.0m Pen Stall (1)
- Accessory Kit (1)
- Encoder (1)
- Additional Mount (1)

- UC22 Print Controller (1)
- 0.7m Pen Stall (2)
- 3.0m Pen Stall (2)
- Accessory Kit (1)
- Encoder (1)
- Additional Mount (1)

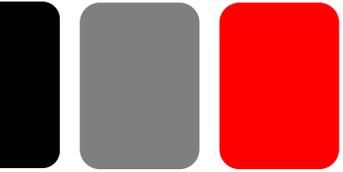

Building the Solution – the Only Questions

- How many heads?
 - What lengths?
- Printing
 - Front
 - Front and Back
